- B. UM Management
- C. Recipient Management
- D. Discovery Management
- E. Service administrator
- F. Organization Management
- G. Billing administrator
- H. Password administrator
- I. User management administrator
- J. View-Only Organization Management
- K. Help Desk
- L. Records Management

Answer: D

QUESTION 48

You implement an intranet site by using Microsoft SharePoint Online. The site uses the default Team Site template. Users create 100 document libraries. Many of the document libraries did not inherit the permissions of the site. You need to provide a user named User with the ability to administer all of the document libraries in the intranet site. The solution must use the minimum amount of administrative effort. What should you do?

- A. From the site settings of the root site, add User to the Hierarchy Managers group.
- B. From the SharePoint Online administration center, add User to the Site Collection Administrators group.
- C. From the SharePoint Online administration center, add a User Profile Property named Administrator and set the property value to True for User.
- D. Assign User the Full Control permission to each site.

Answer: A

QUESTION 49

Your company has a main office and a branch office. Both offices are directly connected to the Internet. The branch office connection to the Internet has limited bandwidth. The company deploys Microsoft Lync Online. You need to ensure that users in the branch office can only use instant messaging (IM) while using Lync Online. The users must be prevented from connecting to audio or video conferences. What should you do?

- A. On the firewall at the branch office, block all of the outbound traffic on port 5061.
- B. From the Office 365 portal, modify the user properties of each user in the branch office.
- C. From the Office 365 portal, configure the license settings of each user in the branch office.
- D. Deploy only the Lync 2010 Attendee client to all of the users in the branch office.

Answer: B

QUESTION 50

Your company has 100 user mailboxes. The company purchases a subscription to Office 365 for professionals and small businesses. You need to enable the Litigation Hold feature for each mailbox. What should you do first?

- A. Purchase a subscription to Office 365 for midsize business and enterprises.
- B. Enable audit logging for all of the mailboxes.
- C. Modify the default retention policy.
- D. Create a service request.

Answer: A
