Download the following free Lead2pass latest exam questions today! Following questions and answers are all new published by Microsoft Official Exam Center: http://www.lead2pass.com/70-347.html QUESTION 162 Your company is planning to migrate to Microsoft Exchange Online. The company employs 1,000 people, each with a mailbox currently located on Exchange 2010 on-premises. You estimate that it will take a minimum of four weeks to migrate all mailboxes from on-premises Exchange to Exchange Online. The company has the following migration requirements: - During the migration, do not change the existing Microsoft Outlook profiles and .ost files used by the employees. - Ensure that email messages sent between on-premises mailboxes and online mailboxes during the migration are secure. - Do not send email messages between on-premises mailboxes and online mailboxes over the Internet in plain text. You need to select the migration strategy that meets the requirements. Which migration strategy should you use? A.   Hybrid migration only B.   IMAP migration followed by staged migration C.   Staged migration only D.   Staged migration followed by remote move migrationAnswer: A Explanation: You can use a hybrid migration to migration from Exchange 2010 to Exchange Online. Note: In the Deployment Assistant, a hybrid deployment is when you create a new Exchange Online Exchange organization in Microsoft Office 365 for enterprises and then connect it to your existing on- premises Exchange 2010 organization by configuring Active Directory synchronization and using the Hybrid Configuration wizards. Incorrect Answers: B: IMAP migration is targeted at customers who may be using non-Exchange-based mail systems in their current hosted environment or have access to the data only by using the IMAP 4 protocol. C, D: You can't use a staged migration to migrate Exchange 2013 or Exchange 2010 mailboxes to Office 365. https://support.office.com/en-us/article/Decide-on-a-migration-path-0d4f2396-9cef-43b8-9bd6-306d01df1e27?ui=en-US&rs=en-US &ad=US QUESTION 163 You need to migrate a Microsoft Exchange Server 2007 organization that has 50 mailboxes to Exchange Online by using the cutover migration method. Which two requirements should be met before you can begin the mailbox migration? Each correct answer presents part of the solution. A.   The migration administrator account must be granted Full Access permission for each on-premises mailbox that will be migrated. B.   The migration administrator account must be granted Send As permission for each on-premises mailbox that will be migrated. C.   Exchange Web Services (EWS) must be enabled and accessible from the Internet. D.   The migration administrator account must be granted Receive As permission for each on-premises mailbox that will be migrated. E.   Outlook Anywhere must be enabled and accessible from the Internet. Answer: AE Explanation: A: To migrate the mailboxes, the admin must have one of the following permissions: The migration administrator must be assigned the FullAccess permission for each on-premises mailbox. or The migration administrator must be assigned the Receive As permission on the on-premises mailbox database that stores user mailboxes. E: The email migration service uses Outlook Anywhere (also known as RPC over HTTP), to connect to your on-premises Exchange Server. https://support.office.com/en-us/article/Perform-a-cutover-migration-of-email-to-Office-365-9496e93c-1e59-41a8-9bb3-6e8df0cd81 b4?ui=en-US&rs=en-US&ad=US QUESTION 164 All employees at a company have Exchange Online mailboxes. You have a policy that allows users to send email messages to a maximum of 500 specific recipients per message. You need to grant User1 the ability to send email messages to 700 specific recipients per message. What should you do? A.   Add the recipients to a new distribution list. Instruct User1 to send email messages to the list. B.   Run the following Windows PowerShell cmdlet: Set-TransportConfig C.   Run the following Windows PowerShell cmdlet and apply the policy to User1: New-ThrottlingPolicy D. In the Exchange Admin Center, modify the mailbox properties for User1. Answer: A Explanation: For distribution groups stored in an organization's address book, the group is counted as one recipient. Incorrect Answers: B: The Set-TransportConfig cmdlet is usedto modify the transport configuration settings for the whole Exchange organization, not for a single user. C: A throttlingPolicy does not refer to the number of recipients of email messages. https://technet.microsoft.com/en-us/library/exchange-online-limits.aspx#RecipientLimits QUESTION 165 You manage a Microsoft SharePoint Online deployment. You create a new site collection named ContosoSites. You attempt to modify the storage quota from the SharePoint admin center, but you discover the Storage Quota option is missing. You need to ensure that the Storage Quota option is available. What should you do? A.   From the SharePoint admin center, set Site Collection Storage Management to Manual. B.   Sign in to the Office 365 admin center by using a user account that has Global administrator privileges. C.   Sign in to the SharePoint admin center by using a user account that has Global administrator privileges. D.   From the SharePoint admin center, set Site Collection Storage Management to Automatic. Answer: B Explanation: To configure a resource quota for a specific

site collection, perform the following steps: 1. Sign in to the Office 365 Admin Center with a user account that has SharePoint Online administrator privileges. 2. Under Admin, click SharePoint. This will open the SharePoint Admin Center. 3. Click Site Collections. 4. Select the site collection for which you want to configure the resource quota and then click Server Resource Quota. Etc. https://www.microsoftpressstore.com/articles/article.aspx?p=2434070&seqNum=2 QUESTION 166 You manage a Microsoft SharePoint Online deployment. You need to ensure that In-Place Holds only preserve files from the moment that In-Place hold was created. You open the document library settings as shown in the exhibit.

   What should you do? A.   Set Create a version each time you edit a file in this document library to No versioning. B.   Set Require documents to be checked out before they can be edited to Yes. C.   Set Create a version each time you edit a file in this document library to Create major and minor (drafts) versions. D.   Set Keep the following number of major versions option to 0. Answer: A Explanation: If document versioning isn't enabled and an item is placed on hold multiple times, SharePoint preserves the version that's current at the time each hold is placed. For example, if version 27 of an item is the most recent when the site is placed on hold the first time, and version 51 is the most recent when the site is placed on hold the second time, versions 27 and 51 are preserved. https://technet.microsoft.com/en-us/library/fp161516.aspx#in_place_holds Lead2pass promise that all 70-347 exam questions are the latest updated, we aim to provide latest and guaranteed questions for all certifications.
