

## Quickly Pass 70-467 Exam with Lead2pass New Microsoft 70-467 Study Materials (71-80)

You will pass your Microsoft 70-467 exam GUARANTEED using our accurate 70-467 practice questions and answers PDF&VCE dumps. Lead2pass exam dumps will help you not only pass in the first try, but also save your valuable time. Give your career a boost and start earning your Microsoft certification today!

**QUESTION 71** You need to re-establish subscriptions on SSRS01. What should you do? A. Start the SQL Server Agent on SSRS01. B. Restore the ReportServer database. C. Restore the ReportServerTempDB database. D. Use the SQL Server Configuration Manager to reset the SQL Service account credentials. Answer: A

**QUESTION 72** You need to design the recovery strategy for SSRS01. What should the strategy include? (Each Answer presents part of the solution. Choose all that apply.) A. Re-create the SQL Server Agent jobs that are used to trigger schedules. B. Restore the ReportServer and ReportServerTempDB databases with recovery. C. Restore the ReportServer and ReportServerTempDB databases with no recovery. D. Restore the msdb database. E. Restore the Report Server encryption key. F. Restore the database encryption key. Answer: ABE

**QUESTION 73** You need to identify changes in the financial database. What should you do? A. Add SQL Server replication to each table. B. Extract data from the current partition of each table. C. Add a timestamp column to each table. D. Perform a full extract of each table. E. Enable change data capture on each table. Answer: E

**QUESTION 74** You need to create the Package Activity report. What should you do? A. Create a log table and use SSIS event handlers to write to the log table. Then create an SSRS report that uses the log table. B. Use the SSIS log provider for SQL Server. Then create an SSRS report that uses the sysssislog table. C. Create a log table and build a custom log provider to write to the log table. Then create an SSRS report that uses the log table. D. Create an SSRS report that uses the catalog.executions and catalog.execution\_data\_statistics views. Answer: D

**QUESTION 75** You need to implement the aggregation designs for the cube. What should you do? A. Use the CREATE CACHE statement. B. Use the Aggregation Design Wizard. C. Create relational indexes on the source tables. D. Use the Usage-Based Optimization Wizard. Answer: B

**QUESTION 76** You need to slice data by the CouponUsed, OnSale, and Closeout columns. What should you do? A. Create one linked dimension for each column. B. Create one degenerate dimension. C. Create one role-playing dimension. D. Create one junk dimension. Answer: D

**QUESTION 77** You need to design a cube partitioning strategy to be implemented as the cube size increases. What should you do? A. Use relational OLAP (ROLAP) on all local partitions. B. Implement monthly remote partitions. C. Use multidimensional OLAP (MOLAP) on all local partitions. D. Implement monthly local partitions. Answer: B

**QUESTION 78** You need to choose the appropriate key to use when designing a dimension table based on the Customer table. What should you do? A. Use a surrogate key. B. Use a natural key. C. Use the CustomerNumber column as the key. D. Concatenate the CustomerName and CustomerNumber columns and use the concatenated string as the key. E. Use the CustomerName column as the key. Answer: A

**QUESTION 79** You need to implement the product dimension. What should you do? A. In the data warehouse, create a product dimension from a view that joins the Product and ProductColor tables in the financial database and contains product name and product color attributes. B. In the data warehouse, create a dimension table that contains product name and a dimension table that contains product color. C. In the data warehouse, create a product dimension table that contains product name and product color. D. In the cube, create a named query that joins the Product and ProductColor tables in the financial database. Answer: C

**QUESTION 80** You need to scale out SSAS. What should you do? A. Back up the cube on ServerB and restore it on ServerC each day. B. Create an empty cube on ServerC and link to the objects in the cube on ServerB. C. Process the cube on both ServerB and ServerC each day. D. Synchronize the cube from ServerB to ServerC each day. Answer: D

Lead2pass Microsoft 70-467 Exam Pack provides you with a learning perspective based on case studies and scenario based learning that improves your familiarity with actual exam context. Microsoft 70-467 exam kit includes up to date exam questions well formatted in PDF&VCE versions, providing you convenience and excellence both at the same time. Your worries about exam complexity no more exist if you gained in depth knowledge about exam related content from our Exam Pack. <http://www.lead2pass.com/70-467.html>
